

## OUR CLIENTS

## WE ARE YOUR DATA SCIENCE DEPARTMENT

- We provide end-to-end data science solutions.
- The first end is tied to your business problem.
- The second one is a data-driven solution.

## WHAT OUR CLIENTS SAY

The platform delivered by the Appsilon team allowed us to migrate a specialized spreadsheet model into a collaborative web application and give our clients a tool better than anything they have ever seen before.

Frankie Gregorkiewicz, Managing Consultant, Triple A

Appsilon team perfectly fitted to our startup culture and managed to boost us with brilliant ideas of product shape and project organization. We are deeply satisfied with the results of our cooperation.

Thomas Ko, President & Co-founder, NAMU Systems
